the people who count the votes do.*

Praying what happened with the Brazilian vote in October 2022 won't happen in the U.S. While millions of Republicans were working hard to get out the vote, billions of dollars was spent, the voting machine fraudsters were planning their electronic election manipulation.

Voting machine manipulation – sophisticated. Is it becoming stealth?

- Mainstream media commentators especially MSNBC and CNN called Republicans fascist.

Today's Democratic Party

Furthermore, we are a constitutional republic, not a democracy.

World Health Organization Sparks Concerns about Power Grab through Global Pandemic Treaty

Michele Bachmann: The World Health Organization or W.H.O. Through a series of 307 amendments and a global pandemic treaty, the W.H.O. is seeking to gain authority over international health decisions of U.N. member nations in the event of something like another COVID pandemic.

"Then they would be empowered to tell us in America we have to lock down, we have to shut down, we have to close our churches, we have to close our schools," Bachmann cautioned.

"We're forced – mandated – to take a vaccine, whether we want to or not. We're forced to mask.

We're forced to – whatever it is that they tell us – that we have to do.

We have never before in history – in five thousand years of recorded human history – we've never seen this level of authority given to an international, global body."

One World Order and Plandemic

And that no man might buy or sell, save he that had the mark,
or the name of the beast, or the number of his name.

Here is wisdom. Let him that hath understanding count the number of
the beast: for it is the number of a man; and his number is Six hundred
threescore and six.

Klaus Schwab Explains How to Fix the Global Trust Crisis

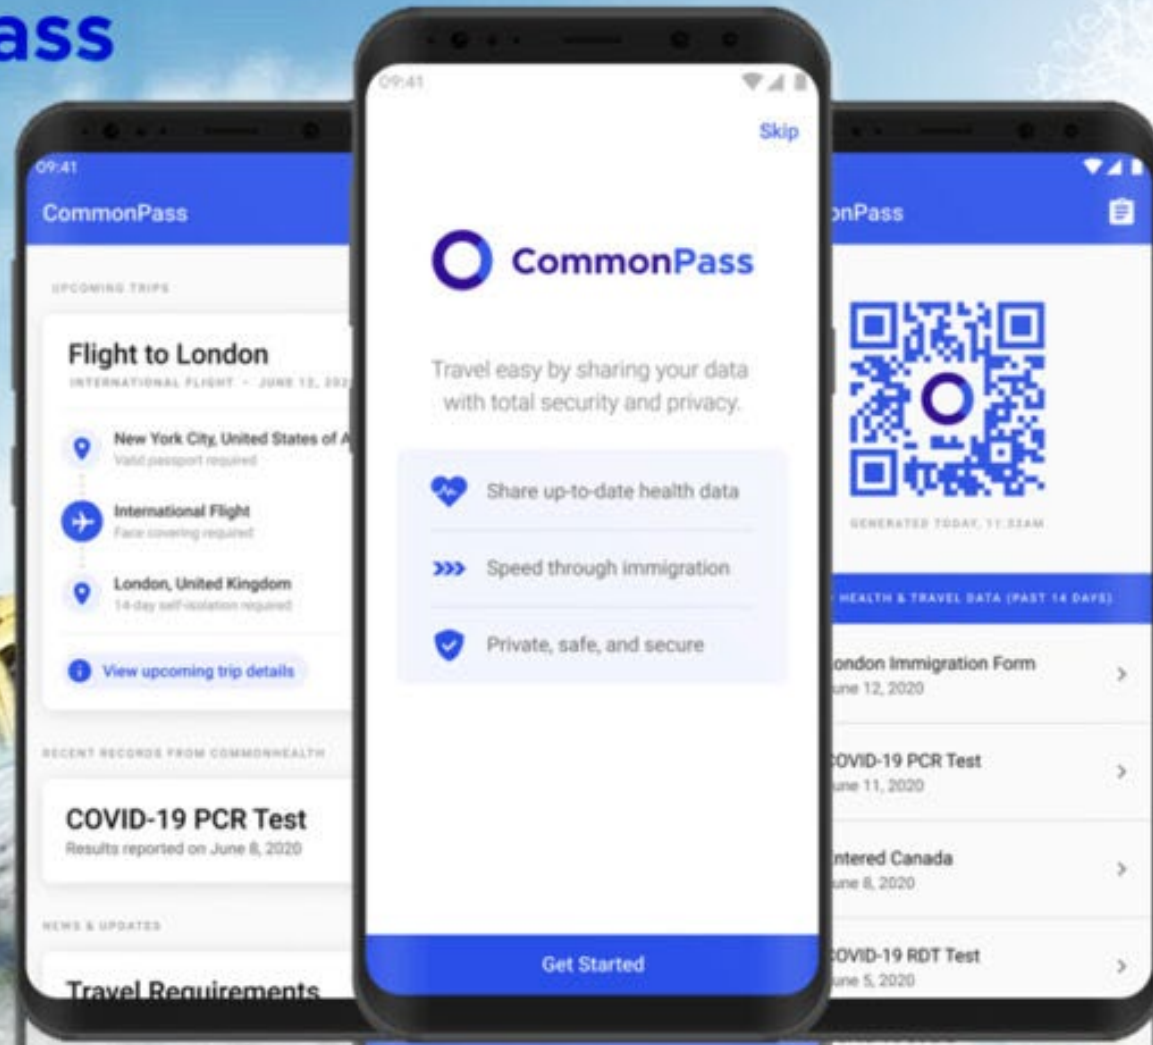

We have over 50 initiatives, platforms for public-private cooperation. I'm very proud to say, since the beginning of the crisis, we have won over 200 additional partners who joined us without knowing when they could go to Davos or not.

But I think the time has come to bring people together, because we see a degradation of trust in the world, and trust only builds through personal relations. And the [World Economic Forum](#), in a broader sense, is a community of multistakeholders, businesses, governments, civil societies, young generation, to work together.

CHRISTIANS

AGAINST

CHRISTIAN 

NATIONALISM

Christian nationalism is Christianity-affiliated religious nationalism. Christian nationalists primarily focus on internal politics, such as passing laws that reflect their view of Christianity and its role in political and social life. In countries with a state Church, Christian nationalists, in seeking to preserve the status of a Christian state, uphold an antidisestablishmentarian position.

Christian nationalists support the presence of Christian symbols and statuary in the public square, as well as state patronage for the display of religion, such as school prayer and the exhibition of nativity scenes during Christmastide or the Christian Cross on Good Friday.
